Day 2 and 3 Bwindi Impenetrable Forest

The Mountain Gorillas in Bwindi are part of a worldwide population of just 720 individuals. The gorillas we are allowed to track belong either one of 6 habituated family groups. For up to five years each, these groups have undergone an extremely delicate process that has gradually brought them to tolerate the presence of humans for a brief period every day and allowed a few privileged visitors to interact with them in the wild.

The time taken to track the gorillas varies enormously, from as little as half an hour to as much as 9 hours before one returns to camp. Once the gorillas are located, our group will be allowed a maximum of one hour with them.

We will enjoy 1 gorilla track, and on the day that we do not go gorilla tracking, we will enjoy a walk in the forest and a visit with a local community
