Journeys Discovering Africa

TRAVELLER TOURS

This week long safari takes you to experience the wildlife in Uganda's Lake Mburo National Park, followed by gorilla tracking in Rwanda

**BUSHTRACKER**

## DAY 1: ARRIVAL-ENTEBBE

We will meet you at Entebbe International Airport and take you to a nearby boutique hotel for a welcome drink and a briefing

The Boma Guest House  
Meal Plan: Dinner

## DAY 2: ENTEBBE-LAKE MBURO NATIONAL PARK

This morning we drive south west for 5 hours. On the way to our lodge we will have a chance to see game in Lake Mburo National Park. This park is contiguous with the habitat of northern Tanzania and is therefore the only park in Uganda to harbor Impala Antelope.

Also see here are the world's largest antelope, the Eland, as well as the occasional sighting of Lion and Leopard, as well as Hyena. The park is less well known for the 6 species of Bush Baby that live here.

Mihingo Lodge  
Meal Plan: Full Board

## DAY 3: LAKE MBURO NATIONAL PARK

During your stay here, you have the option of viewing game from the deck of the lodge, by jeep at night, on foot or on horseback.

You can also take a boat ride out on the lake. This diversity makes Lake Mburo Park one of the most interesting in Uganda.

Meal Plan: Full Board

## DAY 4: LAKE MBURO NATIONAL PARK-VOLCANOES NATIONAL PARK

Today we drive further south west to Rwanda (clocks go back an hour) and get to our lodge, nestled on the slopes of the Mt Sabyinyo, one of the Virunga chain of volcanoes. We relax, ready for the 'main event' of gorilla tracking the next day.

Mountain Gorilla View Lodge  
Meal Plan: Full Board

## DAY 5: VOLCANOES NATIONAL PARK

The start of two days of exciting and challenging activities. The Mountain Gorillas are part of a worldwide population of just 720 individuals, and the families we track on the first day belong to one of several habituated family groups. They are by no means tame, and are wild animals, and experienced guides will accompany us on our tracking, many of whom have been involved in the habituation process themselves.

Meal Plan: Full Board

## DAY 6: VOLCANOES NATIONAL PARK-KIGALI

On the second day, we have an option of a second gorilla track, or a chance to track the "Little Primates" of the Virungas, the Golden Monkeys. They are much smaller than gorillas, but no less interesting or rare.

We travel back to Kigali in the afternoon.

Kigali Serena  
Meal Plan: Full Board

## DAY 7: KIGALI

This morning we take a city tour of Kigali, and there is the opportunity to visit the Kigali Genocide Memorial Centre. The Centre in Kigali contains a permanent and extremely moving exhibition of the Rwandan genocide and an exhibition of other genocides from around the world.

We then relax for the rest of the day to prepare for our flight out.

Meal Plan: Breakfast

A general level of basic fitness is normally recommended for Gorilla and Chimpanzee tracking. However, if you have any disabilities or believe your fitness levels may be an issue, please do not despair. The Far Horizons has a history of helping clients who are differently-abled or who have certain conditions that would normally prevent participation. Please let us know your requirements when you enquire and we will do our best to help.
